

# Explanation of Work Usage

## ### Where the Work Has Been Used:

This project has been developed as part of a programming portfolio evaluation. It is hosted on GitHub Pages to ensure easy accessibility for evaluators and users.

## ### Why the Work Has Been Used:

The website demonstrates the application of modern web development principles, including structured navigation, form elements, tables, and image integration.

It ensures compliance with evaluation criteria and serves as an interactive platform for showcasing programming projects.

This document is provided in PDF format to ensure the details regarding project usage are accessible in a structured manner.
